

# BOVILIS<sup>®</sup> Cryptium<sup>®</sup>

The world's first and only vaccine designed to protect newborn calves against *Cryptosporidiosis* from the day of birth.

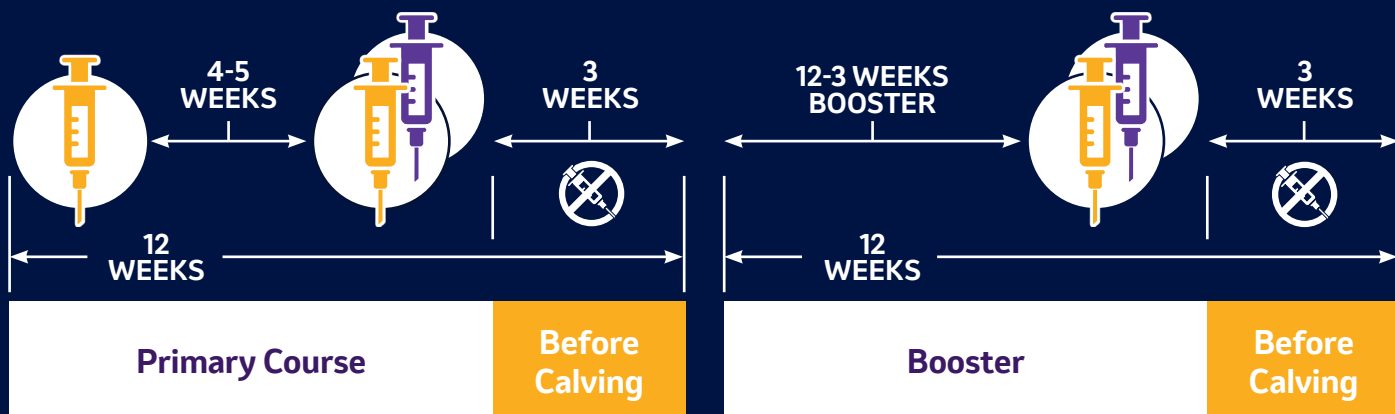

**THIS  
CHANGES  
EVERYTHING**

# BOVILIS<sup>®</sup> Cryptium<sup>®</sup>

Vaccinating your pregnant heifers and cows with **Bovilis Cryptium** raises antibody levels in their colostrum. This immunity is then passed onto their calves reducing disease caused by *C. parvum*.

## BOVILIS<sup>®</sup> Cryptium<sup>®</sup>

- Primary Course: 2 doses under the skin (SC) 12-3 weeks before calving, 4-5 weeks apart.
- Single booster dose 12-3 weeks before each subsequent calving.

## BOVILIS<sup>®</sup> Rotavec<sup>®</sup> Corona

- Single dose vaccine given intramuscularly (IM) 12-3 weeks before each calving. Single booster dose during each subsequent pregnancy.
- Bovilis<sup>®</sup> Rotavec<sup>®</sup> Corona can be given at the same time as the first or second vaccination of Bovilis Cryptium.

**Bovilis Cryptium** can be administered at the same time as **Bovilis<sup>®</sup> Rotavec<sup>®</sup> Corona**, at different vaccination sites.

Together these two vaccines **protect your calves** against **4 of the most common\*** neonatal calf diarrhoea pathogens; *C. parvum*, coronavirus, rotavirus & *E. coli*.

Rev Med Vet (Toulouse) 2009;160:404-9. All-Island Animal Disease Surveillance Report, 2021. Department of Agriculture, Food and the Marine of Ireland, Agri-Food and Bioscience Institute and Animal Health Ireland

**Protection of calves depends on adequate ingestion of colostrum and transition milk** from vaccinated cows and heifers.

It is recommended that **all calves are fed colostrum and transition milk during the first 5 days of life.**

**FOR MORE INFORMATION CONTACT YOUR VET TODAY**

Withdrawal periods: Zero days. Legal Categories: ROI [POM] NI [POM-V]

Bovilis<sup>®</sup> Cryptium<sup>®</sup> contains inactivated Cryptosporidium parvum Gp40 antigen. Bovilis<sup>®</sup> Rotavec<sup>®</sup> Corona contains inactivated Rotavirus and Coronavirus and *E. coli* F5 (K99) and F41 antigens. Read the product data sheets for more information.

### Use medicines responsibly
